GATEWAY ARCH & ST. LOUIS WATERFRONT

View from East St. Louis, Ill.

Jefferson National Expansion Memorial on St. Louis' waterfront, memoralizes this historic area as the "Gateway to the West". The inspiring 630 ft. stainless steel GATEWAY ARCH, focal point of St. Louis' skyline, embraces within its environs, the Old Courthouse, the Old Cathedral, new buildings to complement its graceful curve, and the ever-active Mississippi waterfront.

Spent Sat in St. Louis (12 of us) & had a ball. Saw the arch & went to Cards baseball game. Really enjoying ourselves (work & play). Hate to leave, but must journey on to Pa. tomorrow. Weather has been perfect. Relatives have all left except us - "quiet".

Bye, bye - Love, Nichols
